## INTEREST RATE SCHEDULE

### Minimum Account Balance and How We Determine the Interest Rate

No minimum account balance is required to open a Health Savings Account or to obtain the annual percentage yield disclosed. We use the daily balance method to calculate the interest on your account. The daily balance method applies a daily periodic rate to the principal in the account each day. Interest is compounded monthly and credited monthly. Interest begins to accrue no later than the business day that we receive credit for the deposit of non-cash items (for example, checks). The interest rate and annual percentage yield (APY) is based on the balance in your account. If you close your account, interest that has accrued but has not yet posted will not be paid.

The interest rate and annual percentage yield available on your account is as follows, effective as of October 1, 2022.

Daily Balance	Interest Rate	APY
\$50,000.00 or more	0.50%	0.50%
\$25,000.00 - \$49,999.99	0.30%	0.30%
\$5,000.00 - \$24,999.99	0.15%	0.15%
Less Than \$5,000.00	0.05%	0.05%

This interest rate is subject to change at our discretion at any time. Fees may reduce your earnings.
